

Sami-Severi Sjöberg

Software Engineer

I am currently studying ICT Engineering, specializing in software engineering and project management. I have participated in a variety of projects, including hackathons held in Lithuania, setting up personal servers, game jams, and developing educational applications. I have been studying in this field for nearly seven years, gaining experience in multiple paths such as game production, hardware, and most recently software engineering, which I have grown passionate about and decided to pursue further.

Experience

○ 2022-2024

Studisco OY

Creative Director

I worked at Studisco Games as the Game Production Lead and Lead Designer, overseeing overall game production and project direction. I coordinated design planning, managed team scheduling and production timelines, and was responsible for organizing and leading meetings.

○ 2022-2023

Viking Line and The Finnish navy

Ship's cook

I worked as a ship's cook in the navy, where I earned my ship's cook certification. The following summer, I continued working as a ship's cook on a Viking Line vessel. I was also recognized as the best ship's cook of the 2/22 arrival.

○ 2019-2021

Jimm's PC store

Computer assembler

I worked for three summers assembling computers and updating BIOS systems, and I have built over a thousand computers.

Certifications

○ Student mentor

Peer Tutor, trained in peer mentoring, media literacy, and substance abuse awareness.

○ EA1

First Aid Training completed during military service.

○ Food Hygiene Certificate

Food Hygiene Certificate, completed during ship's cook training.

○ Security Awareness

Security Awareness training, focused on understanding and responding to security risks and protocols.

Hobbies

I actively pursue hobbies such as sabre fencing, fishing, gaming, motorcycling, and botany.
